Google’s Eric Schmidt & Jared Cohen discuss The New Digital Age
Moderated by Bhaskar Chakravorti

Wednesday, February 26, 2014, 6:00pm
Cohen Auditorium

Billions of people are coming online in the next decade. Their physical lives, human rights, and civic relationships will be forever altered. In THE NEW DIGITAL AGE: Transforming Nations, Business and Our Lives Google’s Eric Schmidt and Jared Cohen tackle some of the most interesting questions about our future: how will technology change privacy and security, war and intervention, diplomacy, revolution and terrorism? How will technology improve our lives? What new disruptions can we expect?

Since joining Google in 2001, Eric Schmidt helped grow the company from a Silicon Valley startup to a global leader in technology. As executive chairman, he is responsible for the external matters of Google: building partnerships and broader business relationships, government outreach and technology thought leadership. Prior to Google, he served as CEO of Novell, and in a range of leadership positions at Sun Microsystems. From 2001-2011, Eric served as Google’s chief executive officer. More

Jared Cohen is the founder and Director of Google Ideas and Adjunct Senior Fellow at the Council on Foreign Relations. Previously he served as a member of the Secretary of State’s Policy Planning Staff and as a close advisor to both Condoleezza Rice and Hillary Clinton. In 2013 he was named as one of TIME’s 100 most influential people in the world. He currently serves as a member of the National Counterterrorism Center’s (NCTC) Director’s Advisory Board. More

The Hitachi Center was founded at The Fletcher School in 1990, with a generous endowment gift from Hitachi, Ltd. Its mission is to sponsor advanced research and instruction, demonstrate intellectual and professional leadership, and encourage and facilitate a global exchange of ideas on the management of innovation and technological change and the advancement of economic and financial integration. Over the years, the Hitachi Center has helped to promote Fletcher’s mission of teaching, research, and service through its support and promotion of internships, research on important issues of global technology management, international finance, and international economic integration, conferences bringing together scholars and policy-makers, and other educational activities.
