Chris Doten

Making Mugabe Play Whackamole: Civil Society, Technology and the Story of a Fraudulent Election

February 3, 2014, Crowe Room – 12:00 p.m.

Refreshments will be served.

Chris Doten is a Senior Program Manager for NDI’s Information and Communication Technology Programs team. Chris spearheads technology innovation, applying appropriate new approaches with citizen organizations, governments and political parties across NDI’s 70+ countries, and has been on the ground in 20.

Chris specializes in the challenges of internet freedom and cybersecurity in closed societies as well as using new technologies for political organizing. Chris was a previously a computer network security engineer and worked for the campaigns of President Obama, Hillary Clinton and John Kerry. Chris is a 2007 MALD graduate of the Fletcher School.

About the Hitachi Center:

The Hitachi Center was founded in 1990, with a generous endowment gift from Hitachi, Ltd., and is housed at the Fletcher School at Tufts University. Its mission is to sponsor advanced research and instruction, demonstrate intellectual and professional leadership, and encourage and facilitate a global exchange of ideas on the management of innovation and technological change and the advancement of economic and financial integration. Over the years, the Hitachi Center has helped to promote Fletcher’s mission of teaching, research, and service through its support and promotion of internships, research on important issues of global technology management, international finance, and international economic integration, conferences bringing together scholars and policy-makers, and other educational activities.
